

## **Supportive Housing Projects**

### **Potiker Family Senior Residence**

A 200-unit affordable, housing facility with supportive services for seniors 62 years of age and older living below the federal poverty level. Units are reserved for special needs residents, in particular those who are chronically mentally ill and for seniors with serious physical handicaps requiring special equipment. Designed to promote independent living, Potiker residents may receive supportive services that include:

- Health services
- Mental health services
- 2 meals/day M-F (donation requested, but not required)
- Social services
- Advocacy and referrals to community resources
- Social activities and educational opportunities

### **City Heights Square**

A 150-unit residential facility modeled after the Potiker Family Senior Residence. In addition to providing affordable housing to multi-ethnic, low-income seniors in the City Heights area of San Diego, this new residential facility offers easy access to public transportation, shops, library, recreation center and includes the following supportive services:

- Health services
- Mental health services
- One meal/day M-F (donation requested, but not required)
- Social services
- Advocacy and referrals
- Activities and educational opportunities
